Panasonic

Digital Proprietary Telephone

Quick Reference Guide

Model No. KX-T7665

Important Information

When using the KX-T7665, keep the following conditions in mind.

- If there is any problem, unplug the extension line and connect a known working phone. If the known working phone operates properly, have the defective phone repaired by a specified Panasonic Factory Service Centre. If the known working phone does not operate properly, check the KX-TDA series Business Telephone Systems and the internal extension wiring.
- Keep the unit away from heating appliances and electrical noise generating devices such as fluorescent lamps, motors and televisions. These noise sources can interfere with the performance of the unit.
- This unit should be kept free of dust, moisture, high temperature (more than 40 ˚C) and vibration, and should not be exposed to direct sunlight.
- Do not use benzine, thinner, or the like, or any abrasive powder to clean the cabinet. Wipe it with a soft cloth.
- Do not use any handset other than a Panasonic handset.
- Do not disassemble this product. Dangerous electrical shock could result. The unit must only be disassembled and repaired by qualified service technicians.
- When a failure occurs which exposes any internal parts, disconnect the telephone line cord immediately and return this unit to service centre.
- Never attempt to insert wires, pins, etc, into the vents or other holes of this unit.

WARNING:

TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR ANY TYPE OF MOISTURE.

THE HANDSET EARPIECE IS MAGNETISED AND MAY RETAIN SMALL FERROUS OBJECTS.

IMPORTANT NOTICE:

- Under power failure conditions, this telephone may not operate. Please ensure that a separate telephone, not dependent on local power, is available for use in an emergency.
- This equipment shall not be set to make automatic calls to telecom 111 Emergency service.*
- The grant of a Telepermit for any item of terminal equipment indicates only that Telecom has accepted that the item complies with the minimum conditions for connection to its network. It indicates no endorsement of the product by Telecom, nor does it provide any sort of warranty. Above all, it provides no assurance that any item will work correctly in all respects with another item of Telepermitted equipment of a different make or model, nor does it imply that any product is compatible with all of Telecom's network services.*

* The regulation is applied in New Zealand only.

Note: In this manual, the suffix of each model number is omitted.

<Following declaration is applicable to KX-T7665X/KX-7665CE only.>

$C \in$ This product is intended to be connected to Panasonic KX -TDA series Business Telephone Systems only.

We, Panasonic Communications Co., Ltd., declare that this equipment is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. If you want to get a copy of the original Declaration of Conformity of our products which relates to the R&TTE, please contact to our web address: **http://doc.panasonic-tc.de**

www.beophone.rs

Connection

The telephone line cord
(included)

→ Connect to a KX-TDA series
Business Telephone System (*TO MAIN UNIT /PABX*).

→ Connect to a digital proprietary telephone
for D-XDP (▥).
TO DIGITAL

CAUTION
Ensure the cords are inserted
in the groove to prevent
damage to the connector.

< Back view>

• The availability of D-XDP function depends on the software version of the connected
Business Telephone System. Consult your dealer for more details about D-XDP.
Wall Mounting

1 Pull down the handset hook until it locks,
so the tab holds the handset.

3 Mount the unit on the wall.

2 Remove the attached stand.

**To temporarily place the handset down
during a conversation,** hook it over the
top edge of the phone as shown.
